Sole Source Letter

This letter is to provide notification that mangrove.org® is the sole source provider of Riley Encased Methodology® and the REM Encasement Device for coastal reforestation, habitat creation, environmental restoration, shoreline stabilization, erosion control, green funeral and living memorial dedications.

As a result of our investment in innovation (methodology, principles and processes, techniques, tools, protocols, documentation and educational programs) we have created a portfolio of intellectual property rights that include:

- Patents
- Trademarks
- Copyrights

We are the only organization in the world with the unique technical competence, expertise, experience and proprietary knowledge in the application of Encased Methodology® as-well-as the design and manufacture of the REM Encasement Device.

Robert W. Riley, Jr.
Director
